

CHAMBERS PORT OF ENTRY PROJECT

PUBLIC SCOPING MEETING SEPTEMBER 20, 2012

The Arizona Department of Transportation, in association with the Federal Highway Administration, is proposing to construct a new Port of Entry at approximately milepost 322 on westbound Interstate 40 west of Chambers. The existing Sanders Port of Entry on I-40 at milepost 341 was constructed in 1966 and is not able to meet demand generated by current and future truck traffic. The new Chambers Port of Entry will manage and regulate commercial traffic entering Arizona more efficiently and effectively.

MEETING PURPOSE AND DETAIL

The purpose of tonight's meeting is to provide an overview of the proposed project, to discuss the engineering procedure and schedule, to present the environmental process under the National Environmental Policy Act, (NEPA) and to provide an opportunity for the public to be involved in the decision-making.

ABOUT THIS MEETING

The project team will have a presentation with details about the project. You are welcome to review the exhibits prior to or after the presentation.

A question and answer session will be held immediately following the presentation. Please write your question on the card provided and hand it to any project team member.

Your input is important to us. Be sure to complete a comment sheet. You may leave it with us tonight or submit it to the project team by October 19, 2012.

PROJECT SCHEDULE

The project is currently in the design phase. Construction funding is not currently budgeted and a schedule for construction has not been established.
